PANKAJ SINGH

Full Stack Developer

pjethi292@gmail.com +9917167005 anaarwala, dehradun pankaj-singh-jethi/

Highly skilled Full Stack Developer with hands-on experience in building scalable web and mobile applications using React, Next.js, and React Native. Proficient in REST API development, database design, and state management. Passionate about building high-performance, user-focused products with a strong background in computer applications and a continuous drive to learn modern web technologies.

EXPERIENCE

Full Stack Developer
2024-01 – Present

Digiyuni

Developing multiple production-ready platforms, including storytelling apps, learning systems, quiz applications, and music streaming apps.

- Designed and developed scalable web and mobile applications using React, Next.js, and React Native
- Collaborated with team members to integrate frontend with APIs and ensure seamless user experience
- Improved application performance by optimizing database queries and API responses

Web Developer
2023-01 – 2024-01

Tetra Information Services Pvt Ltd

Developed and enhanced frontend features for company websites and built multiple web applications.

- Developed Suno Kahaniyan, a storytelling platform, using React, Zustand, Express.js, PostgreSQL, and Redis
- Built TechYuni, a learning platform, using Next.js, MongoDB, Redis Cloud, Redux Toolkit, and Gemini API
- Designed and developed the complete frontend for zuhuas.org, focusing on clean UI, responsiveness, and performance

EDUCATION

Graphic Era Hill University
2021-01 – 2023-01

Master of Computer Applications (MCA) in Computer Applications

Kumaun University
2016-01 – 2019-01

B.Sc in Science

K.V.No.1 Banbasa Cantt
2015-01 – 2016-01

12th in High School

PROJECTS

Namo Music App

Technologies: React Native, Express.js, PostgreSQL, Redux Toolkit

A cross-platform music streaming application built using React Native, Express.js, PostgreSQL, and Redux Toolkit.

- Designed and developed the application's UI and UX
- Implemented music streaming functionality using Express.js and PostgreSQL
- Optimized application performance for seamless user experience

TBPS Quiz App https://education.tbpsngo.org/home

Technologies: Next.js, Express.js, Redux Toolkit

A web and mobile application built using Next.js, Express.js, and Redux Toolkit.

- Developed the application's frontend using Next.js and React

- Implemented quiz functionality using Express.js and Redux Toolkit
- Ensured seamless user experience across web and mobile platforms

Suno Kahaniyan https://sunokahaniyan.com

Technologies: React, Zustand, Express.js, PostgreSQL, Redis

A storytelling platform built using React, Zustand, Express.js, PostgreSQL, and Redis.

- Designed and developed the application's UI and UX
- Implemented storytelling functionality using Express.js and PostgreSQL
- Optimized application performance for seamless user experience

SKILLS

Programming Languages:	TypeScript, JavaScript
Frameworks & Libraries:	React.js, Next.js, Redux Toolkit, Zustand
DevOps & Tools:	Node.js (Express.js), Nginx, PM2, Git
Databases:	PostgreSQL, MongoDB, Redis
Soft Skills:	Team Collaboration, Problem-Solving, Continuous Learning
